**Subject: Application for UI/UX Designer Position**

Dear Ms. Ambilao,

I am writing to express my interest in the UI/UX Designer position at Anura Innovations. I recently graduated with a Bachelor of Science in Information Technology (BSIT) and am eager to apply my foundational skills in designing intuitive, user-centered digital experiences.

Throughout my academic journey, I developed skills in UI design, branding, and prototyping using tools like Canva. These experiences have equipped me to create visually compelling and user-friendly interfaces. My studies allowed me to explore the intersection of design and usability, strengthening my ability to enhance user interactions through thoughtful layout, color psychology, and cohesive brand identity.

While I am at the beginning of my professional career, I am confident in my ability to learn quickly, collaborate effectively, and contribute meaningful ideas.

I would welcome the opportunity to further discuss how my passion for design, strong willingness to learn, and solid foundation in UI/UX can contribute to your team. Thank you for considering my application.

Sincerely,

**Rayhana D. Saripada**
